CONSUMO D'ACQUA RIDOTTO DEL 50%
WATER SAVING 50%

La tradizione del Made in Italy di Alta Qualità nel rispetto della salute del consumatore e dell'ambiente *The tradition of High Quality Made in Italy in the environment and health respect*

L'acqua è un bene sempre più scarso e per questo sempre più prezioso. Più di un miliardo di persone nel mondo non hanno accesso all'acqua potabile ed almeno 500 milioni soffrono di grave carenza d'acqua. Non avere accesso all'acqua significa non avere a disposizione la quantità d'acqua minima giornaliera per le funzioni vitali. Il fabbisogno minimo biologico per la sopravvivenza è infatti di 5 litri in 24 ore, ma per parlare di condizioni accettabili c'è bisogno di un minimo giornaliero di circa 50 litri d'acqua pro capite. La crescita demografica della popolazione mondiale, l'aumento del consumo d'acqua nei paesi più ricchi e l'inquinamento delle risorse idriche stanno, infatti, creando uno squilibrio tra la disponibilità e la richiesta d'acqua potabile generando una vera e propria emergenza destinata ad accentuarsi nei prossimi anni.

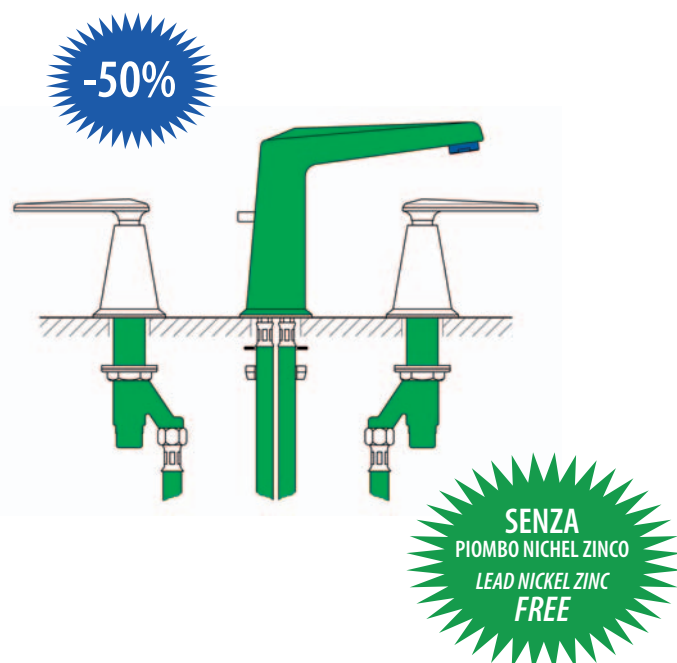

Nicolazzi S.p.A., a riconferma della continua attenzione rivolta alla difesa dell'ambiente ed all'ecologia, ha introdotto su tutta la rubinetteria da lavabo e da lavello uno speciale sistema di risparmio idrico al fine di ridurre del 50% il consumo d'acqua giornaliero (portata limitata a max. 5,7 L/min.). L'utilizzo di uno speciale rompigetto ad elevata aerazione garantisce inoltre la qualità del flusso di erogazione in ogni condizione di pressione.

L'acqua è un elemento fondamentale per la vita del nostro pianeta, una risorsa che deve essere protetta e preservata. Nicolazzi S.p.A. ci ha pensato, pensateci anche voi e richiedeteci i rubinetti con la riduzione di portata del 50% al fine di poter consumare anche voi solo l'acqua necessaria. Il risparmio d'acqua è un dovere civile nei confronti dei nostri simili, protegge l'ambiente (contribuisce anche alla riduzione delle emissioni di CO₂) e permette anche di risparmiare denaro.

Water is a more and more precious good because less and less available. More than a billion people in the world do not have access to drinkable water and 500 millions people have serious problems in getting water. Not having access to water means not having the minimum daily vital amount of water. Individual biological minimum need is 5 litres/24hours, but in order to have acceptable conditions we speak about 50 litres/24hours. World population increase, huge use of water in western Countries and pollution of available sources are causing a general water emergency, estimated to get worse in years to come.

Nicolazzi S.p.A., confirming once more its attention to environment, applied to all washbasins and sink mixers a "water saving system" in order to reduce by 50% the daily use of water (max 5,7 l/min). Use of a special aerator with high air amount gives a good water flow with low pressure as well.

Water is a basic element for life on our planet, a resource to be protected and saved. Nicolazzi S.p.A. cares about it, you can do the same by requiring "50% water saving" taps in order to use only the water you need. "Water saving" is a positive attitude, it protects the environment (it helps reducing carbon dioxide emissions, CO₂) and it helps you saving money.

Ecologico

PRODOTTO SENZA PIOMBO E NICHEL
CON OTTONE IN LEGA ANTIDEZINCIFICANTE

LEAD AND NICKEL FREE
BRASS ALLOY WITHOUT ZINC

Nicolazzi S.p.A., da anni attenta ai problemi derivanti dal possibile rilascio di sostanze inquinanti e tossiche dei rubinetti, si è attivata per realizzare prodotti atossici soprattutto per quanto riguarda la cessione di metalli pesanti quali PIOMBO e NICHEL. La rubinetteria Nicolazzi S.p.A. sulla base di strette normative internazionali ha applicato all'intera produzione, che interessa la rubinetteria da cucina e da lavabo, un nuovo speciale ciclo produttivo che elimina la cessione di questi metalli pesanti già all'origine. A tale proposito, Nicolazzi S.p.A. si è attivata per sostituire il trattamento chimico da anni impiegato per la rimozione del PIOMBO dai rubinetti, con l'utilizzo di ottoni SENZA PIOMBO di nuova generazione (Pb max. 0.25%) nella propria produzione ecologica. Tale scelta, pur essendo antieconomica per l'azienda, risulta essere un'ulteriore riconferma della filosofia aziendale rivolta a garantire la salute del consumatore soddisfacendo al tempo stesso la legge americana Ab1953, che ad oggi risulta essere la più restrittiva in materia. Tutto questo, abbinato all'impiego di un sistema chimico che inibisce la cessione di NICHEL a contatto con l'acqua potabile ed all'utilizzo di guarnizioni e/o prodotti non metallici atossici, ha permesso a Nicolazzi S.p.A. di testare i propri rubinetti anche secondo la norma americana NSF-61, con una cessione in acqua potabile di PIOMBO inferiore a 11 ppb (µg/l) e di NICHEL inferiore a 20 ppb (µg/l).

N.B: Le limitazioni attualmente più rappresentative per la cessione di metalli da parte di articoli di rubinetteria nelle acque potabili limitano appunto la cessione del PIOMBO a 11 ppb (µg/l) e la cessione di NICHEL a 20 ppb (µg/l).

Oltre a certificare che tutti i rubinetti per cucina e lavabo subiscono questo speciale ciclo produttivo ANTI-PIOMBO e NICHEL, i pezzi sono prodotti con ottone in lega ADZ antidezincificante (assenza rilascio di ZINCO), nel rispetto della norma Australiana Watermark e trattati secondo le norme americane NSF-61.

Nicolazzi S.p.A., prima in Italia ad adottare questo procedimento, dimostra in questo modo un'alta sensibilità ai problemi connessi all'ambiente, all'ecologia ed alla salute del consumatore.

La riconoscibilità del prodotto è garantita dal marchio "Ecologico" su ciascun rubinetto.

Nicolazzi S.p.A., very careful with issues concerning release of toxic materials from water taps, has been manufacturing for many years "health friendly" products, mainly not releasing heavy metals such as LEAD and NIKEL into drinking water.

Nicolazzi S.p.A., based on strict international rules, is using a special manufacturing system for all its sinks and washbasin taps to avoid release of heavy metals. To this regard, Nicolazzi S.p.A. has now started a re-organizing process to replace previous "LEAD washing" chemical treatment with the use of new generation LEAD-FREE brass (maximum LEAD 0.25%). This costly Company policy confirms the philosophy to grant consumers' health in respect of the new American norm Ab1953, actually the strictest one in our business. All this, with the chemical treatment to avoid release of NIKEL in drinking water and the use of non-toxic washers and components, allowed Nicolazzi S.p.A. to obtain American norm NSF-61, with a LEAD release less than 11 ppb (µg/l) and NIKEL less than 20 ppb (µg/l).

NOTE: Actually the strictest limitation for heavy metals release in drinking water for taps are LEAD less than 11 ppb (µg/l) and NIKEL less than 20 ppb (µg/l).

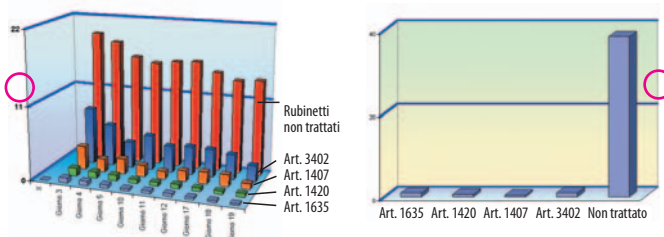

Beside above procedures against LEAD and NIKEL, our items are made with a special DZR brass (alloy with no release of ZINC) for the Australian Watermark regulation and produced following the NSF-61 American rules.

Nicolazzi S.p.A., the first Italian Company with this manufacturing process, shows a strong sensibility to problems regarding environment, ecology and consumers' health.

Our commitment is granted by the "ECOLOGICO" logo on each tap.

Esempi di Cessione di Nichel e Piombo da rubinetti Nicolazzi prodotti con il processo "ECOLOGICO" e rubinetti non trattati.

Examples of cession of nickel and lead from Nicolazzi's taps made with "ECOLOGICO" process, and taps not treated.

Limite massimo accettabile 11 ppb di piombo.
The acceptable maximum limit is 11 ppb of lead.

Limite massimo accettabile 20 ppb di nichel.
The acceptable maximum limit is 20 ppb of nickel.

rubinetteria NICOLAZZI

Dal 1960, anno della sua fondazione, la NICOLAZZI S.p.A. ha la sede in Alzo (No), piccolo paese sul lago d'Orta famoso in tutto il mondo per la lavorazione del granito prima (fino agli anni '50) e dei rubinetti oggi.

La Rubinetteria NICOLAZZI si è innestata in questa tradizione operando ad alto livello tecnologico che, insieme alla ricerca stilistica e funzionale, permette la realizzazione di una rubinetteria di qualità superiore.

La ditta NICOLAZZI studia e progetta i suoi prodotti in modo autonomo ed originale nel rispetto delle normative internazionali. Sottopone ogni pezzo ad un serio e minuzioso collaudo controllando tenuta, rumorosità, durata, funzionalità ed accurate finiture.

Questo modo di produrre ha permesso di adottare il sistema di qualità ISO 9000. La certificazione è un'ulteriore garanzia della qualità del prodotto che esce dal proprio stabilimento per raggiungere i clienti più esigenti alla ricerca di prodotti qualificati. Una efficiente rete commerciale assicura una distribuzione dei nostri prodotti sia in Italia che nel mondo.

"From 1960, the year of this establishment, the NICOLAZZI S.p.A. is placed in Alzo (No) a small village on the lake of Orta, famous all over the world for the granite-working until the Fifties and nowadays for the production of taps."

The NICOLAZZI tap manufacturer has married this tradition working with an high technical standard, that, together with stylistic and functional research, allows the realisation of superior quality taps.

The company NICOLAZZI studies and designs its own items in an original and individual way, by respecting the International Norms. Each piece is subject to a very serious and particular inspection by testing water-seal, noise, corrosion, functionality and careful finishings.

This way of production allowed to adopt the quality system ISO 9000. The certification is a further guarantee of the quality of our items, that leave the factory to reach the most exigent clients that are looking for qualified products.

A very efficient commercial organisation assure the distribution of our articles in Italy and in the world."

ISTRUZIONI PER LA PULIZIA CLEANING INSTRUCTIONS

La pulizia di tutti i nostri prodotti deve essere eseguita esclusivamente utilizzando acqua, sapone neutro ed un panno morbido (NON abrasivo) al fine di preservare la finitura nel tempo. Tutti i prodotti devono sempre essere asciugati con un panno morbido (NON abrasivo) al fine di impedire la formazione di depositi di calcare. Per quanto riguarda la finitura TB suggeriamo l'utilizzo della nostra speciale cera (articolo C9996) al fine di mantenere nel tempo il tipico colore "marrone". Le finiture non sono coperte da garanzia in quanto subordinate alla cura dell'utente.

Concerning cleaning of our products we suggest you to use always water, neutral soap and a soft cloth. This will allow you to preserve finishings for a long time. For TB we have a special wax (item C9996) to maintain longer its typical «brown» colour. Finishings are not covered by warranty.

guida alla composizione del codice di acquisto instructions to compose the purchase code

La composizione del codice d'acquisto deve essere eseguita nel seguente modo:
The composition of the purchase code must be effected in the following way:

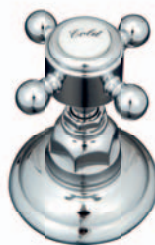

esempio / for example

Art. **2002 CR 38**

____ Tipo di maniglia / Type of handle

____ Sigla finitura / Finishing abbreviaton

____ Codice articolo / Code article

CR

Classica finitura galvanica di cromo lucido realizzata a spessore al fine di garantire lunga durata. L'elevata durezza superficiale tipica del cromo conferisce ai prodotti elevate doti di resistenza.

Standard chrome finishing worked in «thick layer» to give long durability and strong resistance.

FV

Finitura galvanica di tonalità scura, sottoposta a lavorazione manuale di «spazzolatura» e protetta da vernice trasparente opaca.

Dark galvanic finishing, hand brushed and protected with a matt transparent paint. Good for modern and antique styles.

GF

Finitura galvanica di doratura realizzata a spessore con i medesimi materiali impiegati per il gold brass però con concentrazione ridotta al fine di fornire un oro di tonalità ancora più chiara tipica dei paesi anglosassoni.

Galvanic gold colour. Second shade of gold colour.

AG

Finitura galvanica con tonalità simile all'oro antico, sottoposta a lavorazione manuale di «spazzolatura» e protetta da vernice trasparente opaca. Indicata per le serie classiche.

Galvanic gold colour, hand brushed and protected with a matt transparent paint. Indicated for classic style.

TB

Finitura di esclusiva Nicolazzi che conferisce un vero look antico ai prodotti tramite ossidazione dell'ottone. IMPORTANTE: questa è una finitura «viva» (non protetta) che cambia nel tempo offrendo variazioni di colore tipiche dell'ossidazione dell'ottone in abbinamento al tipico colore giallo del metallo che riemerge nelle zone di maggior contatto durante l'uso (maniglie, canne, etc.). NON PULIRE CON PRODOTTI AGGRESSIVI.

Exclusive finishing from Nicolazzi. Real antique look. Galvanic oxidation of brass. IMPORTANT to know it is a «Living Finishing», it changes in time. A brass colour will come out. DO NOT CLEAN WITH AGGRESSIVE PRODUCTS.

Ottone naturale soggetto ad ossidazione
Living natural brass

CL

Classica finitura colorata (nera o bianca) ottenuta tramite verniciatura polimerica e successivamente cotta al forno per garantirne la più alta resistenza.

Classic coloured (black or white) finish obtained by «polymer coating» and then baked in the oven to ensure the highest resistance.

CB

Finitura con le medesime caratteristiche del cromo con l'aggiunta della lavorazione manuale di "spazzolatura". Ottima sia per le serie moderne che per le serie classiche.

Like CR but hand brushed. Good for modern and antique styles.

CS

Finitura con medesime caratteristiche del cromo realizzata su superficie satinata anziché lucida. Normalmente viene utilizzata nelle serie moderne ed è eccellente, vista la sua resistenza, per la linea cucina.

Chrome finishing on a «rough» surface. Normally used on modern styles and excellent for kitchen faucets for its strength.

NL

Tipica finitura galvanica di nichel lucido. Eccellente per le serie classiche. **IMPORTANTE:** Nicolazzi offre questa finitura allo stesso prezzo del cromo. Rivestimento di base per la finitura oro, pur essendo realizzata a spessore, mantiene le caratteristiche tipiche del metallo nichel (morbidezza e predisposizione a lievi variazioni di tono nel tempo).

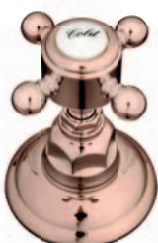

Typical galvanic polished nickel finishing. Excellent for antique style. IMPORTANT is Nicolazzi offers it at same price than Chrome. First shade of gold colour.

NS

Finitura con le medesime caratteristiche del Nichel con l'aggiunta della lavorazione manuale di "spazzolatura". Normalmente chiamata "color acciaio" è eccellente sia per le serie moderne che per le serie classiche.

Just like Nickel but hand brushed. Normally called «STEEL colour». Excellent for modern and classic styles.

RG

Rivestimento di vero oro 24k a spessore, ottenuto tramite processo galvanico che utilizza il sale industriale KAu(CN)₂ estratto direttamente dal metallo prezioso, con l'aggiunta di un additivo per ottenere una colorazione rosa.

Real 24k gold, obtained with the use in galvanic basin of an industrial salt KAu(CN)₂ extracted from Genuine Gold Metal with the addition of a «special additive» to obtain the pink colour.

GO

Rivestimento di vero oro 24k a spessore, ottenuto tramite processo galvanico che utilizza il sale industriale KAu(CN)₂ estratto direttamente dal metallo prezioso.

Real 24k gold, obtained with the use in galvanic basin of an industrial salt KAu(CN)₂ extracted from Genuine Gold Metal. Darkest shade of gold colour.

GB

Finitura galvanica di doratura realizzata a spessore con i medesimi materiali impiegati per l'oro però con concentrazione ridotta al fine di fornire un oro di tonalità più chiara.

Galvanic gold colour. Third shade of gold colour.

RA

Tipica finitura rame eseguita galvanicamente, sottoposta a lavorazione manuale di "spazzolatura" e protetta da vernice trasparente lucida.

Typical Copper galvanic finishing, hand brushed and covered with a brilliant transparent paint.

OG

Finitura di esclusiva Nicolazzi che conferisce un vero look antico ai prodotti. **IMPORTANTE:** questa è una finitura "viva" (non protetta) in quanto trattasi di ottone grezzo naturale non protetto che cambia nel tempo offrendo tonalità scure tipiche della passivazione del metallo.

Exclusive finishing from Nicolazzi. Real antique look. IMPORTANT to know it is a «Living Finishing» that changes in time. It is raw not protected brass, it will soon be darker.

Ottone naturale soggetto ad ossidazione
Living natural brass

OL

Finitura tipica dell'ottone sottoposto a lavorazione di lucidatura brillante. **IMPORTANTE:** questa è una finitura "viva" (non protetta) in quanto trattasi di ottone lucido naturale non protetto che cambia nel tempo offrendo tonalità scure tipiche della passivazione del metallo.

Polished brass NOT protected. IMPORTANT to know it is a «Living Finishing» that changes in time. It is not protected brass, it will soon be darker.

Ottone naturale soggetto ad ossidazione
Living natural brass

OS

Finitura ottenuta con la lavorazione manuale di "spazzolatura" sull'ottone naturale, **IMPORTANTE:** questa è una finitura "viva" (non protetta) in quanto trattasi di ottone grezzo naturale non protetto che cambia nel tempo offrendo tonalità scure tipiche della passivazione del metallo.

Raw brass hand brushed. IMPORTANT to know it is a «Living Finishing» that changes in time. It is not protected brass, it will soon be darker.

Ottone naturale soggetto ad ossidazione
Living natural brass

BZ

Tipica finitura galvanica di bronzatura, sottoposta a lavorazione manuale di "spazzolatura" e protetta da vernice trasparente lucida.

Typical Bronze galvanic finishing, hand brushed and covered with a brilliant transparent paint.

DB

Tipica finitura galvanica di bronzatura in versione scura, sottoposta a lavorazione manuale di «spazzolatura» e protetta da vernice trasparente lucida.

Typical Bronze galvanic finishing in dark version, hand brushed and covered with a brilliant transparent paint.

DBM

Tipica finitura galvanica di bronzatura in versione scura, sottoposta a lavorazione manuale di «spazzolatura» e protetta da vernice trasparente opaca.

Typical Bronze galvanic finishing in dark version, hand brushed and covered with a matte paint.

This article must always be coupled with art. 4911

INFORMAZIONI TECNICHE

TEMPERATURA DI ALIMENTAZIONE ACQUA CALDA

Minima: 48°C
Massima: 85°C
Consigliata: 60°C

PRESSIONE DI ALIMENTAZIONE

Minima: 1 bar
Massima: 5 bar
Consigliata: 3 bar

IMPORTANTE:

Le pressioni di alimentazione dell'acqua calda e fredda devono essere uguali.
Differenza massima accettata fra le due pressioni: 1 bar.

PORTATA

33 l/min a 2,5 bar

TARATURA DI FABBRICA DELLA CARTUCCIA TERMOSTATICA 38°C.

Parametri di taratura.
Acqua calda: 60°C/3 bar
Acqua fredda: 15°C/3 bar

ATTACCHI

Entrata acqua calda e fredda = G 3/4"
Uscita doccia e vasca = G 3/4"

DISPOSITIVI DI SICUREZZA

Blocco manuale della temperatura a 38°.
Blocco automatico erogazione acqua in caso di mancanza di acqua fredda o acqua calda.
Valvole anti-ritorno e sistema filtrante interno ispezionabili anche dopo il montaggio.

TECHNICAL INFORMATION

HOT WATER TEMPERATURE

Minimum: 48°C
Maximum: 85°C
Recommended: 60°C

PRESSURE

Minimum: 1 bar
Maximum: 5 bar
Recommended: 3 bar

IMPORTANT:

The pressure alimentation of hot and cold water have to be the same.
Maximum difference accepted between the two pressures: 1 bar.

FLOW RATE

33 l/m at 2.5 bar

FACTORY SETTING OF THE THERMOSTATIC CARTRIDGE 38°C

Setting test conditions:
Hot water: 60°C/3 bar
Cold water: 15°C/3 bar

CONNECTION DIMENSIONS

Hot and cold water inlets = 3/4" G
Shower and tub outlet = 3/4" G

SAFETY INFORMATION

Manual stop temperature at 38°C.
Automatic stop of the water in case of cold water lack.
Check valves and filters inside.

INFORMATIONS TÉCNIQUES

TEMPERATURE D'ALIMENTATION DE L'EAU CHAUDE

Minimum: 48°C
Maximum: 85°C
Conseillé: 60°C

PRESSIION D'ALIMENTATION

Minimum: 1 bar
Maximum: 5 bar
Conseillé: 3 bar

IMPORTANT:

les pressions d'alimentation de l'eau chaude et froide doivent être les mêmes.
La différence au maximum acceptée est de 1 bar.

CAPACITÉ

33 l/min à 2,5 bar

ÉTALLONAGE DE L'USINE DE LA CARTOUCHE THERMOSTATIQUE 38°C

Paramètres d'étallonnage
Eau chaude: 60°C/3 bar
Eau Froide: 15°C/3 bar

ATTAQUES

Entrée de l'eau chaude et froide = G 3/4"
Sortie mélangeur douche et bain = G 3/4"

DISPOSITIFS DE SECURITÉ

Bloc manuel de la température à 38 °C.
Bloc automatique de l'eau de distribution en cas de manque de l'eau froide ou de l'eau chaude.
Soupape auto-retour et arrange inspectable intérieur disjoint également après l'assemblage.

TECHNISCHE INFORMATIONEN

TEMPERATUR DES EINZIEHEN DES WARMEN WASSER

Minimum: 48°C
Maximum: 85°C
Fähigkeit: 60°C

ERHÖHUNG DRUCK

Minimum: 1 bar
Maximum: 5 bar
Fähigkeit: 3 bar

WICHTIG:

der Erhöhung Druck des warmen und kalten Wassers muß gleich sein.
Der geltende maximale Unterschied zwischen dem zwei Druck: 1 bar

KAPAZITÄT

33 l/min an 2,5 bar

KALIBRIERUNG DER FABRIK DER THERMOSTATISCHEN KARTUSCHE 38°C

Parameter der Kalibrierung
Warm Wasser: 60°C/3 bar
Kalt Wasser: 15°C/3 bar

ANGRIFF

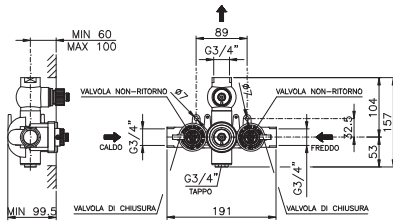

Eingang warmes und kaltes Wasser = G 3/4"
Ausgang Dusche und Badewanne = G 3/4"

EINHEIT DER DRINGLICHKEIT

Manueller Block des Gewehr-Verteilung Wassers des Temperaturblockes.
Automatischen im kalten Wasser des Mangelfalles oder in den warmen. Wasserventilen der Nihrückgabe und ordnet undichtet inneres.

condizioni di vendita

sales condition

VALIDITA' DEL CONTRATTO, QUOTAZIONI, CONSEGNA

Con il conferimento dell'ordine si intendono integralmente accettate le seguenti condizioni:

- Gli ordini trasmessi direttamente o tramite rappresentante costituiscono impegno per la ditta NICOLAZZI SpA solo dopo la conferma scritta.
- L'annullamento di un ordine non può essere ottenuto senza il consenso della ditta.
- I termini di consegna si intendono approssimativi e non impegnativi essendo essi vincolati alle disponibilità del momento, la mancata osservanza da parte nostra dei termini di consegna indicati non dà diritto al cliente di annullare l'ordine, differire i pagamenti o reclamare indennizzi, compensi, penali o danni di sorta.
- Salvo diverse intese o ritardi di consegna dovuti a causa di forza maggiore gli ordini cessano di validità 6 mesi dopo la conferma scritta.
- La merce viaggia a rischio e pericolo del destinatario anche quando la spedizione viene effettuata in porto franco, l'azienda declina ogni responsabilità per ritardi, guasti, avarie, rotture, danni, ammanchi causati direttamente o indirettamente dal vettore.
- Le quotazioni di questo catalogo/listino si intendono IVA esclusa e sono espressi in Euro; le quotazioni si intendono per merce resa franco stabilimento di Alzo.
- I prezzi del presente catalogo/listino sono calcolati sugli elementi di costo attuali; nel caso in cui questi dovessero variare saranno modificati in conformità i prezzi.
- La ditta si riserva inoltre il diritto di modificare tecnicamente ed esteticamente la propria produzione.

RECLAMI

- Eventuali reclami riguardanti la quantità o la qualità della merce consegnata debbono essere fatti entro otto giorni dal ricevimento della merce e sempre che la merce si trovi nelle stesse condizioni.
- I materiali ritenuti difettosi potranno essere restituiti solamente previa visione del ns agente ed autorizzazione della ditta. La spedizione dovrà essere effettuata in porto franco.
- La responsabilità della ditta si limita alla sostituzione dei pezzi difettosi e non indennizza eventuali danni diretti o indiretti causati dai nostri materiali.
- Si declina inoltre ogni responsabilità per errata installazione e/o manomissione dei nostri materiali.

PAGAMENTI

- Le modalità di pagamento specificate in fattura si intendono tassative: ogni cambiamento che non sia stato preventivamente ed espressamente pattuito non verrà accettato.
- In caso di ritardato pagamento verranno addebitati gli interessi di mora nella misura stabilita dall'art 5 del D.Leg 231/2002 che decorreranno dal giorno successivo alla scadenza.

RISERVA DI PROPRIETA'

- La merce consegnata rimane di riservato dominio della NICOLAZZI SpA fino all'avvenuto pagamento.

CONTESTAZIONI

- Per eventuali contestazioni è esclusivamente competente il foro di Verbania.

GARANZIA

- Tutti i nostri prodotti stati rigorosamente controllati e collaudati prima di essere posti in vendita e sono coperti da garanzia per un periodo di 6 anni dalla data di acquisto del primo acquirente.
- La garanzia decade qualora:
 1. sia fatto un uso improprio del prodotto
 2. il materiale sia stato modificato o manipolato da persona non autorizzata dalla NICOLAZZI SpA
 3. Il materiale sia stato montato in maniera non corretta
 4. il deterioramento della rubinetteria o dei suoi componenti sia dovuto alla qualità dell'acqua (es. calcare)
- Le superfici non sono coperte da garanzia in quanto subordinate alla cura dell'utente.

VALIDITY OF ORDERS (POS), PRICES, DELIVERY

In reference to your PO we consider accepted following conditions:

- Pos received directly or through agent are an engagement from NICOLAZZI SpA only after written confirmation.
- Pos can be cancelled only in agreement with NICOLAZZI SpA.
- The delivery times are approximate and not binding since they are bound by the availability of the moment. Our failure to observe the terms of delivery specified does not entitle the customer to cancel the order, defer payments or claim any compensation, fees, penalties or damage of any kind.
- If it is not differently indicated orders lose their validity 6 months after confirmation.
- The goods travel at the risk of the recipient when the shipment is prepaid, the company accepts no responsibility for delays, failures, breakdowns, breakages, damage, shortages caused directly or indirectly by the carrier.
- The prices in this catalog / price list are exclusive of VAT and are expressed in Euro; Prices indicated in this documentation are intended Ex work Alzo - EXW.
- Prices in this catalog / price list are calculated on the elements of the current costs; in case these should differ will be amended in accordance with the prices.
- NICOLAZZI SpA has the right to change products in order to improve them technically and aesthetically.

COMPLAIN

- Claims are accepted within 8 days from receiving the goods.
- Returns are accepted only after control of our Area Managers or agents and Company authorization. Return shipment will be done in DDP terms - Delivery Duty Paid - (Carriage Paid).
- Company will replace defective components without refunding direct and in direct damages caused by our goods.
- NICOLAZZI SpA is not responsible for improper installations or non authorized modifications of its goods.

PAYMENTS

- The terms of payment specified in the bill are mandatory. Every change that has not been previously and expressly agreed upon will not be accepted.
- In case of delayed payment will be charged default interest in the amount established by Article 5 of the D.Leg 231/2002 which will begin the day after the deadline.

PROPERTY

- Goods are of NICOLAZZI SpA's property until payment has been settled.

LEGAL ISSUES

- In case of legal needs it is competent "Foro di Verbania".

WARRANTY

- All our products have been rigorously checked and tested before being offered for sale and are warranted for a period of 6 years from the date of the first customer purchase.
- The warranty is void if:
 1. has made improper use of the product
 2. the material has been altered or manipulated by an unauthorized person from NICOLAZZI SpA
 3. the material has been assembled incorrectly
 4. the deterioration of the fitting or its components is due to water quality (eg. limestone).
- The surfaces are not covered by warranty as subject to the care and use of the user.
